

Entertainment FAQ's

Q: Where is the performance/demo? Is there a stage? What are the dimensions?

A: The performance/demo is done in the cafeteria. It is stage-ish. The usable area is estimated to be about 35ft x 15ft.

You can see from the picture that it is a raised/stage-like area. (The robotics team had just finished their demo so the robot play pen is sitting on the stage.) There are cafeteria booths along the sides.

Q: What kind, if any, sound system is provided? What, if anything, is provided?

A: There will be a portable speaker provided. It has one, corded microphone. This is the kind that we provide... <https://www.youtube.com/watch?v=Wnup5xDTotI>
Anything else you will need for you performance/demo you will need to provide.

Q: Is there electricity?

A: There is electricity off to the sides and in the middle on the top step.

Q: How much time is the performance/demo?

A: Performances/demos alternate with the *Prize Walk* in 20 minute increments throughout the day.

10:00 – performance/demo

10:20 – prize walk

10:40 – performance/demo

11:00 – prize walk, etc...

The prize walk (pictured above) is played like a cake walk and is done in the cafeteria, but not on the stage. You may use the prize walk time before your performance/demo to set-up/prepare for your

performance/demo and the prize walk time afterward to tear down. Please be aware and courteous of the others who maybe also transitioning on or off the stage during the prize walk.

Here are some other pictures that will hopefully give you a good idea of the space. I encourage you to also browse the Children's Festival facebook page for other pictures.
